

Packages - Bug #14

Put the vt8623fb module back into the kernel

2012-02-26 03:24 AM - LunaVorax

Status: fixed	% Done: 100%
Priority: wish	
Assignee:	
Category:	
Description Title is self-explanatory. Aparently a lot of framebuffer drivers were ditched out recently. I'm probably the only one who still need that module.

Emulatorman just updated linux-libre-lts, maybe it's helpful to you?

#3 - 2012-03-03 03:47 AM - Anonymous

I will to check that module on linux-libre-lts
