Packages - Bug #1502

[love] X BadWindow

2017-10-16 12:48 AM - cequella

Status:	not-a-bug	**% Done:**	0%
Priority:	bug		
Assignee:			
Category:			

Description

$ love
X Error of failed request: BadWindow (invalid Window parameter)
Major opcode of failed request: 4 (X_DestroyWindow)
Resource id in failed request: 0x0
Serial number of failed request: 154
Current serial number in output stream: 155

'love' is a command from the löve2d engine package (love package) and it's working before.

History

#1 - 2017-10-16 05:15 AM - bill-auger

- Subject changed from X BadWindow to [love] X BadWindow

i could not confirm this - the program launched it's pretty GUI and exited cleanly with no output to console - but fwiw i have not upgraded this system in about 3 weeks

cequella - could you run:

```
sudo pacman -Syu
```

then try again

#2 - 2017-11-05 06:07 PM - isacdaavid

i see the error on an updated system.

since we don't manage community/love, the problem is either also present in Arch systems or originates in one of the dependencies that we do touch. these are:

```
$ pactree -su love | expac -S '%r\t%n' - | grep ^libre

libre    linux-libre-api-headers
libre    filesystem
libre    openexr
libre    mesa
```

we need to investigate these

#3 - 2018-01-18 06:50 AM - oaken-source

- Status changed from open to not-a-bug

looks like this was fixed by upstream - it is no longer reproducable on an up-to-date system.
