<b>Description</b> When I run IceCat, I get:  XPCOMGlueLoad error for file /usr/lib/icecat/libxul.so: libhunspell-1.3.so.0: cannot open shared object file: No such file or directory Couldn't load XPCOM.  I checked the [hunspell] package on my system and it's version 1.4, so the version of [hunspell] which icecat is built against needs to be upgraded.
