<b>Category:</b>	
<b>Description</b> <p>Kryoflux comes with a custom license that allows personal use only. So it is non-free as far as we are concerned. Frankly I haven't bothered reading the entire license text because the following excerpt is enough for me:</p> <p>The accompanying software is free for personal use only. Commercial or other use requires a license, please contact us for a quote.</p> <p>Links: - <a href="http://www.kryoflux.com/">http://www.kryoflux.com/</a> - <a href="https://aur.archlinux.org/packages/kryoflux">https://aur.archlinux.org/packages/kryoflux</a></p>
