Description			
gnnee doesn't work properly.			
Maybe it's me, but I can't record mouse and keyboard actions and then replay them, using gnnee.			
Any help would be great.			
Thanks.

Package doesn't exist in the repos so I'm unable to test.
I assume they meant the GNU Xnee program.

#2 - 2022-05-14 12:45 PM - Zuss

- Status changed from open to not-a-bug

Open a package request in the forum if you wish to add the package to the repos and to iron out any issues beforehand
