

dbscripts - Bug #1178

[ARM] db-import-archlinuxarm-pkg misses some packages

2017-01-16 09:38 PM - isacdaavid

Status: fixed	% Done: 100%
Priority: broken	
Assignee: lukeshu	
Category:	
Description Given that only [core], [extra], and [community] are imported from Arch ARM, certain packages that they have changed to depend on their [alarm] repository present unmet dependencies. An example of this is ghc 8.0.1-1, which was changed to depend on the custom llvm37: https://www.parabola.nu/packages/community/armv7h/ghc/	

History

#1 - 2017-10-26 05:25 AM - isacdaavid

- Project changed from Ports to dbscripts

#2 - 2018-10-05 09:04 PM - lukeshu

- % Done changed from 0 to 100

- Assignee changed from isacdaavid to lukeshu

- Status changed from open to in progress

We started importing from ALARM's [aur] and [alarm] in the default config of dbscripts v20181003.1.

#3 - 2018-10-05 09:04 PM - lukeshu

- Status changed from in progress to fixed
