

## Servers - Bug #1207

[repo] Discrepancies for arch=(any) packages between x86/ARM confuses everything.

<b>Description</b> There's a hack to work around it in libretools; but now its killing reporead. I'm now having reporead ignore ARM packages as a temporary workaround.

i completely forgot about this report.

although dbscripts now does the right thing, parabolaweb still doesn't behave as expected. the package updates feed is somehow being polluted by very old [pcr] packages.
