

## Packages - Bug #1210

### mpv needs to be rebuilt

2017-02-12 01:02 PM - GiorgianB

<b>Status:</b> fixed	<b>% Done:</b> 0%
<b>Priority:</b> bug	
<b>Assignee:</b>	
<b>Category:</b>	
<b>Description</b>	
If I run mpv:	
\$ mpv	
ffmpeg library versions:	
libavutil 55.34.100 (runtime 55.34.101)	
libavcodec 57.64.101	
libavformat 57.56.100 (runtime 57.56.101)	
libswscale 4.2.100	
libavfilter 6.65.100	
libswresample 2.3.100	
ffmpeg version: 3.2.3	
mpv was compiled against a different version of FFmpeg/Libav than the shared library it is linked against. This is most likely a broken build and could result in misbehavior and crashes.	
mpv does not support this configuration and will not run - rebuild mpv instead.	
Exiting... (Fatal error)
