

Packages - Bug #1246

[libglvnd] WHY WAS IT BLACKLISTED!?

2017-03-20 05:35 PM - lukeshu

Status: fixed	% Done: 0%
Priority: bug	
Assignee:	
Category:	
Description Because it works with nonfree drivers (in addition to free drivers). THAT'S NOT A REASON. 1. As I understand the reasons, I disagree with them. 2. Beyond that, these kind of reasons need to be discussed. This had not been discussed on the bug tracker, dev@lists.parabol.nu , gnu-linux-libre@nongnu.org , LibrePlanet wiki, or #fsf. It was only been discussed on #parabola briefly, on 2017-03-12. 3. The blacklisting was haphazardly done, and broke user upgrades (see #1243).

- Status changed from open to fixed

This has been answered on dev@, and subsequently un-blacklisted.
