

## Servers - Bug #1254

### [git] cgit is segfaulting occasionally

2017-03-22 04:30 PM - lukeshu

<b>Status:</b> open	<b>% Done:</b> 0%
<b>Priority:</b> bug	
<b>Assignee:</b>	
<b>Category:</b>	
<b>Description</b>	
dmesg says	
<pre>traps: cgit.cgi[\${PID}] general protection ip:45142c sp:7ffe1a76de90 error:0 in cgit.cgi[400000+102000]</pre>	
With the exception of the \${PID}, the numbers are always the same. Similarly, the stack trace logged by systemd-coredump is always the same.	
Coredumps should be retrievable with coredumpctl.	

### History

#### #1 - 2017-03-22 04:37 PM - lukeshu

This is possibly a bug in cgit, but it's also possible that uwsgi is doing something with threads that is causing issues for cgit.

#### #2 - 2017-03-22 04:38 PM - lukeshu

- Subject changed from [git] cgit is segfaulting occasionally to [git] cgit is segfaulting occasionally
