Installation Media - Bug #1276

typo in main ISO MOTD

2017-04-04 08:07 AM - bill-auger

Status:	fixed	**% Done:**	100%
Priority:	bug		
Assignee:	oaken-source

Description

the first thing one sees after booting the main CLI installer ISO is a notice decribing how to open lynx to read the networking guide - it says "Press the number keys while holding ALT ..." to switch VTs but that does not work - you must press ALT + one of the F* keys to switch VTs

History
