

## Packages - Packaging Request #1321

### [kodi] Needs rebuilding

2017-05-08 07:22 PM - ubergeek90

<b>Status:</b> fixed	<b>% Done:</b> 100%
<b>Priority:</b> broken	
<b>Assignee:</b>	
<b>Category:</b>	
<b>Description</b> Since some updates of its dependencies at the end of april, Kodi doesn't work anymore. In fact, in Arch Linux they have already rebuilt the package to make it work.	

### History

I can not reproduce the issue - can you be more specific?

What happened to me is that Kodi couldn't start when some of its dependencies got updated. I had to rebuild it via ABS to make it work.

I'm using it in a media center setup, so it launches when I login.

#### #3 - 2017-07-26 11:12 PM - bpl

I also cannot start Kodi, error message:

```
$ kodi
/usr/lib/kodi/kodi.bin: error while loading shared libraries: libcrypto.so.1.0.0: cannot open shared object file: No such file or directory
```

It seems similar to this issue for Arch Linux ARM:

#### #4 - 2017-08-10 04:30 AM - isacdaavid

are you on armv7h, [bpl](#) ?

#### #5 - 2017-08-10 09:01 PM - isacdaavid

- % Done changed from 0 to 100

- Status changed from open to fixed

please check if it's solved now. we can reopen if necessary
