| <b>Category:</b>   |                   |
| <b>Description</b><br>On mips64el port, attempting to start Iceweasel 9 produces an error stating that libffi.so.5 can't be found.<br><br>Package core/libffi 3.0.11-1 is installed. This provides libffi.so.6, among others.<br><br>Soft-linking libffi.so.6 to libffi.so.5 allows Iceweasel to start and run normally. |                   |
| <b>Related issues:</b><br>Related to Ports - Bug #6: [iceweasel-libre] 10.0.2 freezes <span style="float: right;"><b>not-a-bug</b>    <b>2012-02-17</b></span>   |                   |

#### History

##### #2 - 2012-06-13 02:07 PM - mulenmar

Further info:

The exact error message is:

```
XPCOMGlueLoad error for file /usr/lib/iceweasel/libxpcom.so:  
libffi.so.5: cannot open shared object file: No such file or directory
```

Replacing core/libffi (3.0.11-1) with extra/libffi (3.0.10-1) results in the same error message, except that it is libffi.so.6 that cannot be found.

##### #3 - 2016-05-11 11:56 PM - Anonymous

- Project changed from 3 to Ports

##### #4 - 2017-10-14 09:22 PM - isacdaavid

- Status changed from open to not-a-bug

mips64el support is long gone
