

Packages - Bug #1358

libre/clamav crashes when freshclam tries to update virus database

2017-05-30 04:22 PM - freemor

Status: fixed	% Done: 100%
Priority: bug	
Assignee:	
Category:	
Description libre/clamav can't update Virus DB Info on the issue: https://bugs.archlinux.org/task/54198 The issue also causes freshclamd to throw an error at boot if enabled. Sample error output: http://freemor.homelinux.net:16019/~freemor/pastebin//PWFZ5tSFWmQFAgyUxRaP0CwL9u8aJvz5PqKjP9e9u3AerUqLpP15EPvJxsAfBz.txt A working copy of the PKGBUILD tweaked with the work around (turning off llvm) and the dependency on llvm removed: http://freemor.homelinux.net:16019/~freemor/pastebin//l89vtgCq1cZ6ZqiKLvjOC0rwUmt5ZZJni8fJmoE1nter4f9n49E0ZMcrlpwqu0.txt

- Status changed from open to fixed

thanks for the updated pkgbuild.

clamav has been rebuilt without llvm.
