

Packages - Bug #1359

Package pcr/freefilesync doesn't work with current libboost. Can't be rebuilt from PKGBUILD

2017-06-01 05:39 PM - freemor

Status: fixed	% Done: 100%
Priority: broken	
Assignee: ovruni	
Category:	
Description	
The current package throws a libboost error and exits out.	
<code>FreeFileSync: error while loading shared libraries: libboost_thread.so.1.63.0: cannot open shared object file: No such file or directory</code>	
Tried to rebuild from the PKGBUILD to build it against latest libboost but:	
Can't fetch source.. no hosted on mediafire.	
This creates multiple issues as there is no direct download link:	
Link on homepage autogenerates a mediafire url per request	
cURL/wget get 403 when trying to follow download link on website.. even with a referer set (assuming it needs cookies)

confirmed

```
FreeFileSync: error while loading shared libraries: libboost_thread.so.1.66.0: cannot open shared object file:
No such file or directory
```
