Description This seems to happen pretty much every time ruby-gtk2 gets a new version. Tried to open "rrip_gui" in terminal and it resulted in "The ruby-gtk2 library could not be found. Is it installed?". Wasn't sure whether to file a bug about ruby-gtk2 or rubyripper but either way rubyripper does not work.			

History

#1 - 2017-07-06 11:40 PM - isacdaavid

- Subject changed from [rubyripper] GUI version does not work with an up-to-date ruby-gtk2 to [rubyripper] GUI version does not work with an up-to-date [ruby-gtk2]

both of those come straight from Arch. I suggest you report the problem there after double-checking that this actually is an Arch problem

#2 - 2017-07-11 12:52 AM - isacdaavid

- Status changed from open to not-a-bug

just tested rrip_gui and it's working.
marking as "invalid" to keep bug volume manageable. feel free to reopen if necessary.
