

Packages - Bug #141

[mplayer-libre] [mplayer2] Cannot find libltdl.so.7

2012-06-24 12:41 PM - mulenmar

Status: fixed	% Done: 100%
Priority: bug	
Assignee:	
Category:	
Description	
On i686 architecture, attempting to run mplayer with any of	
<ul style="list-style-type: none">• libre/mplayer-libre 34799-2• libre/mplayer-vaapi-libre 34578-5.1• community/mplayer2 20120517-2	
installed results in an error message:	
"mplayer: error while loading shared libraries: libltdl.so.7: cannot open shared object file: No such file or directory"	
core/libltdl 2.4.2-6 is installed, and running "pacman -Qi libltdl grep libltdl.so.7" lists:	
<pre>libltdl /usr/lib/libltdl.so.7 libltdl /usr/lib/libltdl.so.7.3.0</pre>	

History

#3 - 2012-07-24 06:30 AM - Anonymous

Some days ago, I updated mplayer-libre and mplayer-vaapi-libre. Please check if now works. Note: mplayer2 is a package from archlinux

#4 - 2012-08-09 01:28 AM - Anonymous

Those packages were updated and solved it correctly. Solved!
