

Packages - Bug #1420

[luxrender] cannot start due to missing libboost_thread.so.1.63.0

2017-07-22 01:22 PM - nRoof

Status: fixed	% Done: 100%
Priority: bug	
Assignee: ovruni	
Category:	
Description	
When I launch luxrender, the following is printed in the terminal: luxrender: error while loading shared libraries: libboost_thread.so.1.63.0: cannot open shared object file: No such file or directory	
I was able to successfully rebuild the package only after rebuilding of luxrays, and then updating the luxrender PKGBUILD with changes from Arch package regarding the build with GCC 7.
