[linux-libre-firmware] Corrupted PGP-signature

2017-08-07 10:51 PM - through

Status: fixed	% Done: 0%
Priority: critical	
Assignee:	
Category:	
Description Tried to install Parabola and it fails with pacstrap having an issue regarding this package. Please update the concurrent PGP-signature to a valid one!	

History

#1 - 2017-08-07 10:54 PM - through

Error message regarding the signature of "David P. (Hyperbola email address)", which is of unkown trust.

#2 - 2017-08-07 11:13 PM - through

Solved by executing **pacman -Sy parabola-keyring** before populating local keyring.

#3 - 2017-08-10 06:56 PM - ovruni

- Status changed from open to fixed

#4 - 2017-08-11 12:33 AM - through

[ovruni](#): Thanks! :)
