<b>Description</b>			
[short answer]			
Please update Iceweasel to the version 55. It improves the performance in all aspects.			
[long answer]			
Firefox source code has been updated to the version 55. The highlighted features are:			
1.- Browser application UI has been improved to be less intrusive than previous versions.			
2.- URL adress resolving now finds the HTTPS addresses when it's avariable.			
3.- Enabled the option of modification of number of concurrent processes for faster page loading (ideal for multithreading processors).			
4.- Enabled the hardware acceleration mode.			
5.- Added webpage screenshot tool.			
6.- Added Belarusian (BE) locale.			
7.- Many security fixes ( <a href="https://www.mozilla.org/en-US/security/known-vulnerabilities/firefox/#firefox55">https://www.mozilla.org/en-US/security/known-vulnerabilities/firefox/#firefox55</a> ).
