| <b>Description</b><br>I was packaging ryzom-nel and I saw libremakepkg compiling twice, IDK why it does that. However, I can't fix this from my PKGBUILD. I'm attaching my logs. |                   |

#### History

##### #2 - 2012-09-10 06:16 PM - mtjm

There are many probably unrelated problems in the log (e.g. locales, outdated pacman, outdated cleansystem), fixing them might help find the reason for this problem. It's also probably impossible to debug without the PKGBUILD.

##### #3 - 2012-11-28 07:47 PM - lukeshu

libremakepkg has been totally rewritten; I'm going to assume that whatever was causing it before is gone.
