

Packages - Bug #149

[aspell-pl-libre] remove it

2012-07-21 08:57 AM - mtjm

Status: fixed	% Done: 0%
Priority: bug	
Assignee:	
Category:	
Description	
<code>+aspell-pl:aspell-pl-libre: isn't built from source</code>	
is incorrect. Even if it was, the aspell-pl-libre PKGBUILD doesn't do any changes related to this issue.	
My reason for adding aspell-pl-libre was that aspell-pl had source removed after a day and I needed it to build for mips64el, Arch solved this problem by hosting a copy used for newer aspell-pl.
