| Description | |
| Hi, | |
| imagemagic fails like that: | |
| <pre>\$ convert convert: error while loading shared libraries: libLLVM-3.9.so: cannot open shared object file: No such file or directory</pre> | |
| It seem very similar to the following bugs for inkscape and emacs: #1480#1478 | |
| Denis. | |

History

#1 - 2017-10-06 02:28 AM - bill-auger

- Subject changed from [imagemagic] error while loading shared libraries: libLLVM-3.9.so to [imagemagick] error while loading shared libraries: libLLVM-3.9.so

#2 - 2017-10-14 07:30 AM - oaken-source

- Status changed from open to info needed

I can not reproduce this problem. Could you please send the versions of imagemagick and llvm you are using?

try running `pacman -Syu` and see if that fixes the issue.
