

Packages - Bug #1502

[love] X BadWindow

2017-10-16 12:48 AM - cequella

Status: not-a-bug	% Done: 0%
Priority: bug	
Assignee:	
Category:	
Description \$ love X Error of failed request: BadWindow (invalid Window parameter) Major opcode of failed request: 4 (X_DestroyWindow) Resource id in failed request: 0x0 Serial number of failed request: 154 Current serial number in output stream: 155 'love' is a command from the löve2d engine package (love package) and it's working before.	

History

#1 - 2017-10-16 05:15 AM - bill-auger

- Subject changed from X BadWindow to [love] X BadWindow

i could not confirm this - the program launched it's pretty GUI and exited cleanly with no output to console - but fwiw i have not upgraded this system in about 3 weeks

cequella - could you run:

```
sudo pacman -Syu
```

then try again

#2 - 2017-11-05 06:07 PM - isacdaavid

i see the error on an updated system.

since we don't manage community/love, the problem is either also present in Arch systems or originates in one of the dependencies that we do touch. these are:

```
$ pactree -su love | expac -S '%r\t%n' - | grep ^libre
```

```
libre    linux-libre-api-headers
libre    filesystem
libre    openexr
libre    mesa
```

we need to investigate these

#3 - 2018-01-18 06:50 AM - oaken-source

- Status changed from open to not-a-bug

looks like this was fixed by upstream - it is no longer reproducible on an up-to-date system.
