- Subject changed from *[clementine] no me funciona en mi parabola.nu-X86_64* to *[clementine] Depends on inexistant libprotobuf.so.13 library*

Please be more detailed in your titles, things like "doesn't work" are imprecise, and is not necessary to refer the distro (Parabola GNU/Linux-libre) with our domain, no one reports errors like "I'm having issues with my parabola.gnu.org installation". Plus, it's completely useless since this bug tracker is for Parabola only.
