

libretools - Bug #1513

[librechroot] Integrate chroot-nspawn

2017-10-31 09:42 PM - Megver83

Status:	not-a-bug	% Done:	0%
Priority:	feature		
Assignee:	lukeshu		
Category:			
Description We should integrate chroot-nspawn (or put it as a dependency) of libretools since it fixes the issue #431 of redirecting standard input (although according to this it's fixed already in Systemd). We can either put it as a dependency and make librechroot use chroot-nspawn when stdin is redirected (or use it by default) or make a separated version of libretools (eg. libretools-nosystemd) which uses chroot-nspawn by default and remove the warning about the bug of systemd-nspawn.

- Status changed from open to not-a-bug

We don't have a "WONTFIX" status, but that's what I'd do.

Use notsystemd-nspawn.
