Ports - Bug #1518

[pcr] recompile gnupg1 (libreadline.so.6: [...]: No such file or directory)

2017-11-09 09:40 PM - GNUtoo

Status:	fixed	% Done:	100%
Priority:	bug		
Assignee:	isacdaavid		
Category:			

Description

With:

```
pcr/gnupg1 1.4.18-4 [installed]
    GNU Privacy Guard - a PGP replacement tool
```

I have:

```
$ gpg1
gpg1: error while loading shared libraries: libreadline.so.6: cannot open shared object file: No such file or directory
```

However readline 7.0.003-1 has libreadline.so.7.0

Denis

rebuilt.

would you mind if we also moved to more recent versions of monkeysphere and mailpile ? i see no other reason to still be using GPG v1.
