

Packages - Bug #1521

[icecat] wrong permissions for 'icons' folders of extensions break display at 'about:addons'

2017-11-12 02:10 PM - sobek

Status: fixed	% Done: 100%
Priority: bug	
Assignee: oaken-source	
Category:	
Description	
<p>On Parabola x86_64 in package 'icecat' some 'icons' folders use wrong permissions. This prevents display of icons at: icecat -- about:addons</p> <p>The folders are: \$ find /usr/lib/icecat/ -name duckduckgo-lite.xml find: '/usr/lib/icecat/browser/extensions/LCSP@0xbeef.coffee/icons': Permission denied find: '/usr/lib/icecat/browser/extensions/rsf@0xbeef.coffee/icons': Permission denied find: '/usr/lib/icecat/browser/extensions/DMCAreg@0xbeef.coffee/icons': Permission denied</p> <p>Files in these folders use correct permissions. The folder permissions are: 0700 They should be: 0755</p> <p>Quick workaround is: \$ sudo chmod 0755 /usr/lib/icecat/browser/extensions/{DMCAreg@0xbeef.coffee,rsf@0xbeef.coffee,LCSP@0xbeef.coffee}/icons and reload 'about:addons' website.</p> <p>Upstream Git webUI does not display permissions properly; it shows 0000, f.e.: http://git.savannah.gnu.org/cgi/gnuzilla.git/tree/data/extensions/rnrMcDonalds@0xbeef.coffee</p> <p>As far as I remember this problem is present in Trisquel 7.0 x86, too.</p>	

History

#1 - 2017-11-12 02:25 PM - sobek

the GITWEB UI displays the permissions properly (as 0755):
<http://git.savannah.gnu.org/gitweb/?p=gnuzilla.git;a=tree;f=data/extensions/LCSP@0xbeef.coffee>

#2 - 2017-11-13 03:20 PM - sobek

My memory served me wrong, this is not present on Trisquel 7.0 x86.

#3 - 2018-01-17 07:14 PM - oaken-source

- Assignee set to oaken-source
- Status changed from open to in progress

I made the appropriate changes to the PKGBUILD. expect updates soon.

#4 - 2018-01-26 03:26 PM - oaken-source

- % Done changed from 0 to 100
- Status changed from in progress to fixed

fixed in icecat-52.3.0_gnu1-6
