| Description | | | |
| Description: The libre web browser based on Mozilla Firefox. With Wayland patches from gecko-dev. License: MPL GPL LGPL (same as standard Iceweasel package) AUR: https://aur.archlinux.org/packages/firefox-wayland-git/ PKGBUILD: https://aur.archlinux.org/cgit/aur.git/plain/PKGBUILD?h=firefox-wayland-git gecko-dev source: https://github.com/stransky/gecko-dev | | | |
| Mozilla are currently working towards porting Firefox to Wayland: https://bugzilla.mozilla.org/show_bug.cgi?id=635134 . The main issue with porting is Gecko but a lot of progress has been made and it is now possible to run Firefox without using xwayland. Though this requires using the developer version of Gecko. | | | |
| The AUR package (https://aur.archlinux.org/packages/firefox-wayland-git/) does build but it would need the Mozilla branding replaced with the Debian Iceweasel branding. Plus non-free services like Pocket would need removing. | | | |
| Assigned oaken-source as discussed on IRC. | | | |

History

#1 - 2018-07-19 03:01 AM - ovruni

- Priority changed from bug to wish

#2 - 2020-12-15 02:19 PM - oaken-source

- Status changed from open to wont-fix

introducing another variant of the ice* browsers is probably not worth it right now.

closing as stale.
