Description

See the issue here:
https://archlinuxarm.org/forum/viewtopic.php?f=15&t=12252

Kodi crashes with error:

```
/usr/lib/kodi/kodi.bin: error while loading shared libraries: libva.so.1: cannot open shared objec
t file: No such file or directory
```

The workaround is mentioned in the thread above:

```
sudo ln -s /usr/lib/libva.so.{2,1}
sudo ln -s /usr/lib/libva-drm.so.{2,1}
sudo ln -s /usr/lib/libva-x11.so.{2,1}
```

I've confirmed this works on my Parabola system as well.
