

Documentation - Bug #156

git for Parabola contributors

2012-07-27 05:41 PM - mtjm

Status: open	% Done: 0%
Priority: feature	
Assignee:	
Category:	
Description My notes: <ul style="list-style-type: none">• set user name and email• clone abslibre.git or abslibre-mips64el.git• add, remove, checkout, status, diff• commit• push, pull• format-patch, send-email• sending ssh keys to the list• then propose on list deprecating and removing libretools scripts wrapping git Possible benefits: <ul style="list-style-type: none">• easier to contribute• higher change history quality, more available reasons for changes (so easier to fix future bugs)	

History

#2 - 2015-04-18 08:29 PM - alfplayer

<https://bull.codes/> can be used for this?

#3 - 2015-04-18 08:32 PM - mtjm

How does it help document git usage in a more transparent way?

#4 - 2015-04-30 01:23 AM - alfplayer

Meanwhile, people who want to get a package in a Parabola repo can try this: <https://lists.parabola.nu/pipermail/assist/2015-April/000448.html>
