

Packages - Bug #1560

[iceweasel] 1:57.0.1-4 User agent is "X11; Linux x86_64; Iceweasel" now, previous versions had "Windows NT 6.1; Firefox" instead (56 and earlier)

Description	
<p>Well, to be honest, I don't know if it's a bug or a feature.</p> <p>But in previous versions, Windows user agent helped with those sites which are hostile / ignorant about GNU/Linux.</p> <p>For example, https://www.testufo.com/ shows red box about "VSYNC is not available on the Linux platform." which is mostly not true (depends on desktop environment and configuration).</p> <p>I have 1:56.0.1-1 version of Iceweasel on one of the VMs, and it has the following user agent: Mozilla/5.0 (Windows NT 6.1; rv:56.0) Gecko/20100101 Firefox/56.0</p> <p>Current 1:57.0.1-4 has different one: Mozilla/5.0 (X11; Linux x86_64; rv:57.0) Gecko/20100101 Iceweasel/57.0.1</p>

- Status changed from open to fixed

this should be fixed in 1:57.0.1-5 (caused by a typo in vendor.js)
