[kodi] Kodi does not start: cannot find libcdio.so.16

2018-01-23 11:17 PM - bpl

Status: fixed	% Done: 100%
Priority: bug	
Assignee: oaken-source	
Category:	
Description Executing `systemctl start kodi` gives an error from the kodi binary that it cannot find libcdio.so.16. It seems my system has libcdio.so.18 installed. Does the kodi package need to be rebuilt?

kodi was rebuilt. this should fix it :)
thanks for reporting!
