

dbscripts - Bug #1661

Merge [ftplib-cleanup] and [db-cleanup]

2018-03-17 04:29 AM - lukeshu

<div>Status:open</div> <div>Priority:wish</div> <div>Assignee:</div> <div>Category:</div>	<div>% Done:0%</div>
<div>Description</div> <div>From README:</div> <div>When we remove a package from a repository, it stays in the package "pool". We would like to be able to eventually remove packages from the pool, to reclaim the disk space:</div> <div><div><div>- `cron-jobs/ftplib-cleanup`</div><div>- `cron-jobs/db-cleanup`</div></div></div> <div>Both of these programs do the exact same thing. Parabola developers decided to write their own from scratch, instead of modifying `ftplib-cleanup`. They should eventually be merged.</div>
