Description [networkmanager]: error while loading shared libraries: libpsl.so.5: cannot open shared object file: No such file or directory. Package ==> networkmanager-elogind Parabola OpenRC version.	
Related issues: Related to Packages - Bug #1683: [libpsl]: pacman Update problem 'libpsl.so.6' not-a-bug	

History

#1 - 2018-03-18 12:51 PM - arojas0609

So far I've found a solution, I don't know if is this correct, I have uninstal networkmanager-elogind and install networkmanager-1.10.6-1.

#2 - 2018-03-18 05:43 PM - bill-auger

the fix for now is to add a symlink manually and then reboot

```
$ cd /usr/lib/  
$ sudo ln -s libpsl.so.6 libpsl.so.5
```

#3 - 2018-03-18 05:44 PM - bill-auger

- Description updated

#4 - 2018-03-28 05:45 PM - bill-auger

- Related to Bug #1683: [libpsl]: pacman Update problem 'libpsl.so.6' added

#5 - 2018-04-05 05:13 AM - bill-auger

- Priority changed from bug to broken

- Subject changed from NetworkManager: error while loading shared libraries: libpsl.so.5 to [networkmanager-elogind]: error while loading shared libraries: libpsl.so.5

libremakepkg fails to build 'networkmanager-elogind' v1.10.6 - same package conflict for i686 and x86_64

the updated PKGBUILD for v1.10.6 is in abslibre.git

```
$ sudo libremakepkg  
....  
| looking for conflicting packages...  
| :: dbus-elogind and dbus are in conflict (libdbus). Remove dbus? [y/N] error: unresolvable package conflicts detected  
| error: failed to prepare transaction (conflicting dependencies)  
|  
| :: dbus-elogind and dbus are in conflict  
| ==> ERROR: 'pacman' failed to install missing dependencies.  
....
```

- Assignee set to Megver83

#7 - 2018-05-06 08:32 PM - Megver83

- % Done changed from 0 to 100

I could get a successful build after taking some things from Artix's NM PKGBUILD ->
https://github.com/artix-linux/packages/blob/master/networkmanager/repos/extra-x86_64/PKGBUILD
<https://git.parabola.nu/abslibre.git/commit/?id=53742a64907fd86c7ae25a21bd0bf18760f19cca>

#8 - 2022-05-08 09:12 PM - Zuss

This issue along with [#1683](#) seem to be resolved as the libpsl error no longer shows up
