

libretools - Bug #1681

Localization files don't get intalled

2018-03-27 12:19 AM - lukeshu

Status: fixed	% Done: 100%
Priority: bug	
Assignee: lukeshu	
Category:	
Description	
What's the point of localizing it to Spanish if the packages don't include the localization?	
The localization files only get installed by the top-level `make install`, but since we we only call `make install-SUBTARGET` because split package, they don't end up in any package.
