

libretools - Bug #17

[libretools] set proper CARCH before sourcing a PKGBUILD in fullpkg-find

2012-02-27 06:35 PM - mtjm

Status: fixed	% Done: 100%
Priority: bug	
Assignee: xihh	
Category:	
Description We have PKGBUILDs setting depends or makedepends differently depending on CARCH (e.g. vlc or other packages having optional dependencies requiring GPUs not used on mips64el). fullpkg-find doesn't set this variable correctly, so it decides to update these dependencies and fails.	

History

#3 - 2012-04-08 03:14 PM - fauno

treepkg sources /etc/makepkg.conf so the CARCH variable is set

#4 - 2012-06-03 11:18 PM - xihh

Will add a source statement to scripts fullpkg-*

#5 - 2012-06-05 03:45 AM - xihh

Fixed on commit f370b80d4df29991c523ed8af5dc2cb00e611b6e
