

libretools - Bug #170

The scripts leak /tmp/tmp.* directories

2012-08-05 12:19 PM - mtjm

Status: fixed	% Done: 90%
Priority: bug	
Assignee:	
Category:	
Description Should also use more informative names. Needs reviewing all code.

Which script does this? Can you verify that it still does (from the version in libre-testing), many have been cleaned up.

#4 - 2013-05-02 06:24 PM - lukeshu

All programs except for `toru` and `pkgbuild-check-nonfree` (now) use informative names for temp files.

#5 - 2013-06-11 08:17 PM - lukeshu

Until recently, `aur` didn't clean up all of it's temp files.

#6 - 2013-06-11 08:19 PM - lukeshu

All scripts except for `toru`, `fullpkg`, and `treepkg` have been reviewed.

#7 - 2013-08-30 01:43 PM - lukeshu

I just found a bug in chcleanup (while fixing <https://labs.parabola.nu/issues/389>) that could cause it to leak temporary files. I've fixed it now.

#8 - 2013-10-01 05:46 PM - lukeshu

I think this has been "fixed". If anyone notices it again, open a new bug. Otherwise, this bug will stay open forever "because there might be another case."
