what page were you trying to access?

#2 - 2018-04-19 01:45 PM - ani

I was trying to access a bug page on labs.parabola.nu. I cannot reproduce it however since it works now. Maybe someone else can or I can fill in how to do it later.

I've done some testing and this and I suspect other bugs with icecat are related to LibreJS. Disable LibreJS and it's bits and a lot of bad behaviours disappear.
