

Packages - Bug #1753

[gvim] Files conflict with vim-runtime which is a dependency

2018-04-21 05:11 PM - soni

Status: fixed	% Done: 100%
Priority: broken	
Assignee: ovruni	
Category:	
Description Running pacman -S gvim results in the following error: error: failed to commit transaction (conflicting files) /usr/share/applications/vim.desktop exists in both 'vim-runtime' and 'gvim' /usr/share/icons/hicolor/48x48/apps/gvim.png exists in both 'vim-runtime' and 'gvim' /usr/share/icons/loicolor/16x16/apps/gvim.png exists in both 'vim-runtime' and 'gvim' /usr/share/icons/loicolor/32x32/apps/gvim.png exists in both 'vim-runtime' and 'gvim' Installing vim-runtime first, removing the files and then installing gvim works, but this issue means the package can't be updated.
