[labs] Users who are in 0 groups can no longer create issues

Priority: bug

Description When visiting https://labs.parabola.nu/projects/issue-tracker/issues/new , it looks like http://pribib.com/images/issue.png . If you try to "Create and continue", it rejects it saying "Subject cannot be blank", but there is no place to type the subject. I suspect that this is related to bill-auger running su labs this morning.
