pbot-ng - Bug #1766

[pbot]: Doesn't shutdown gracefully, blocks shutdown

2018-04-26 07:09 PM - lukeshu

Status:	open	**% Done:**	0%
Priority:	bug		
Assignee:			
Category:			
Description			
When rebooting the server, pbot doesn't shut down. It takes the full 90 seconds for the 'stop' operation to time out and for systemd to just kill it. This makes reboots take a long time.
