[winston] Cannot send emails

2018-04-27 03:37 AM - lukeshu

Status: fixed	% Done: 100%
Priority: bug	
Assignee: lukeshu	
Category:	
Description The SPF records say that emails may only come from proton, which should be correct. Proton should act as a email hub for Winston. But, proton rejects winston's emails because SPF.

- Status changed from open to fixed

On proton, I set main.cf:mynetworks to include winston's IP (necessitating a switch from mynetworks_style=host to manually listing IPs; I got the effective value of style=host from postconf(1)).

On winston, I set main.cf:relayhost = proton.parabola.nu.

I verified that repo@winston.parabola.nu how can send emails, both using sendmail directly, and on cron failures.
