

libretools - Bug #18

Have unit tests for [fullpkg-find], [toru] and other nontrivial scripts

| Description It's not obvious for me which errors should occur and which shouldn't, it would also help with fixing them. | |

History

#3 - 2012-06-04 12:10 AM - xihh

Hi there... I think these are really needed, so I'll begin by writing those. Mind if they are written in python?

#4 - 2012-11-28 07:54 PM - lukeshu

I'm going to throw in "librechroot", "libremkchroot", and "libremakepkg" into the hat of programs needing unit tests.

#5 - 2012-11-28 08:02 PM - lukeshu

I think this is important for "don't break", adding it to our current target version.

#8 - 2013-05-28 07:39 PM - lukeshu

I've added a few unit tests, but not enough.

#9 - 2013-10-28 10:53 AM - lukeshu

This is always improving now, and there are many tests. Now that we have a testing framework, I'm closing this, otherwise it will always be open, as there can always be more tests.
