Removing hardened preferences... [Discharging, 19%, 00:18:11:freemor@freelap ~]\$</pre>	
I did some digging and the issue in both resides in the:	
<pre>--private-bin=...</pre>	
Section of each.	
Simply adding "sh," to the list of allowed programs fixes the issue for both.	

---

## History

---

### #1 - 2018-05-24 08:47 PM - freemor

For clarity the "--private-bin=" resides in:

iceweasel-hardened.sh

and

icedove-hardened.sh

respectively.

### #2 - 2018-05-26 12:11 PM - freemor

- *File iceweasel-hardened.sh added*

- *File icedove-hardened.sh added*

Here are the files with the needed changes

### #3 - 2018-07-23 01:28 PM - freemor

- *% Done changed from 0 to 100*

- *Status changed from open to fixed*

Checked. Looks like this has been applied/fixed so closing this bug.
