

## Packages - Bug #1835

Bug # 1834 (fixed): [mplayer][ffmpeg][x265]: unsatisfiable

### [x265] Broken dependence with FFMPEG

2018-06-01 04:54 AM - eliotime3000

<b>Status:</b> fixed	<b>% Done:</b> 0%
<b>Priority:</b> bug	
<b>Assignee:</b>	
<b>Category:</b>	
<b>Description</b>	
The new version of X265 has issues with FFMPEG dependence (specificly, the libx265 dependence). Please recompile FFMPEG with the updated dependence to X265 package.	
<pre>error: no se pudo preparar la operación (no se pudieron satisfacer las dependencias) :: ffmpeg2.8: instalando «x265» (2.8-1) se rompe la dependencia con «libx265.so=151-64»</pre>	
Thanks.	

### History

#### #1 - 2018-06-01 01:19 PM - freemor

Had this issue to.

After some poking around I found out that:

```
pacman -Ss ffmpeg2.8 shows nothing
pacman -Fo ffmpeg2.8 shows nothing
pacman -Qi ffmpeg2.8 shows nothing depending on ffmpeg2.8
```

pacman -R ffmpeg2.8 fixed the problem with zero colateral damage.

Updates work fine afterwards.

#### #2 - 2018-06-01 11:29 PM - ovruni

- Parent task set to #1834

#### #3 - 2018-06-03 01:35 PM - christian

I just did a fresh install and mp4 video won't play at all, no ffmpeg2.8 at all.

#### #4 - 2018-06-04 08:47 PM - ovruni

I can play mp4. Only for iceweasel you need iceweasel-1\_60.0-0.testing1

eliotime3000

which command did you type to see that error message?  
and which arch are you running? i686, x86\_64, arm?  
after running pacman -Syu - if you run that same command, do you still see that same error message?

#### #6 - 2018-06-04 10:17 PM - ovruni

This was shown when updating: pacman -Syu  
After removing ffmpeg2.8 the update no longer shows this error

#### #7 - 2018-06-06 06:16 AM - eliotime3000

I'm using the "sudo pacman -Syu" command. The architecture version of Parabola that I've installed is the x86\_64.
