- Status changed from open to not-a-bug

I can not reproduce the error. Maybe you can look at this <https://trac.wildfiregames.com/ticket/5157>

#2 - 2018-06-03 04:45 AM - ani

ovruni: If you cannot reproduce the error tell me how you succeeded in solving the task.

#3 - 2018-06-04 05:41 AM - ani

The error occurs in the file "cstdlib". That file is not part of 0 AD, it is part of GCC.

#4 - 2018-06-04 08:00 PM - ovruni

ani: You must take the time to check the link, to have details on how to fix it

#5 - 2018-06-05 03:58 AM - ani

I know how to work around it, the link is an URL to the task I am assigned to. What you need to understand is that this is an error in GCC, not in 0 AD.

#6 - 2018-06-05 06:02 AM - ovruni

Your task was closed in Arch because it has nothing to do with gcc <https://bugs.archlinux.org/task/58859>

Please read a similar problem to understand how to fix it <https://bugs.debian.org/cgi-bin/bugreport.cgi?bug=823145#25>
