

## Packages - Bug #1837

Packaging Request # 1816 (not-a-bug): [iceweasel] 61.0.2 still needs built for [armv7h]

### [iceweasel] mp4 does not play

2018-06-03 01:39 PM - christian

<b>Status:</b> fixed	<b>% Done:</b> 100%
<b>Priority:</b> bug	
<b>Assignee:</b> lukeshu	
<b>Category:</b>	
<b>Description</b>	
For example, "No video with supported format and MIME type found." error in hooktube. Note that the package ffmpeg2.8 is not installed.	

### History

#### #1 - 2018-06-03 01:40 PM - christian

In iceweasel, sorry.

#### #2 - 2018-06-03 10:26 PM - ovruni

- Subject changed from mp4 does not play in fresh install to [iceweasel] mp4 does not play

#### #3 - 2018-06-04 05:02 PM - bill-auger

- Parent task set to #1816

there is a version of iceweasel v60 in [libre-testing] that fixes this issue

#### #4 - 2018-06-30 02:32 AM - lukeshu

I had been seeing this only on x86\_64, but am now also seeing it on i686.

Here's the warning message that can be seen in the Web Console on <https://joinpeertube.org/en/home/#getting-started> (and other web sites which are unable to play the video):

```
The video on this page can't be played. Your system may not have the required video codecs for: video/mp4; codecs="avc1.64001e", video/mp4
```

To me in this page <https://joinpeertube.org/en/home/#getting-started>

```
The media could not be loaded, either because the server or network failed or because the format is not supported.
```

#### #7 - 2018-07-10 03:00 PM - nRoof

This appears to be due to missing support of FFmpeg 4.0 (libavcodec/libavformat v58) in Firefox 59. See bug [https://bugzilla.mozilla.org/show\\_bug.cgi?id=1435212](https://bugzilla.mozilla.org/show_bug.cgi?id=1435212)

Simple rebuilding won't help, but the issue will likely be resolved when Iceweasel catches up to the latest version of Firefox.
