### History

#### #1 - 2018-06-29 08:15 AM - bill-auger

it was obsoleted by arch on the grounds that it is "ancient technology"

<https://lists.archlinux.org/pipermail/arch-dev-public/2018-June/029270.html>

there is also a mkinitcpio build hook for this - i suppose we need to package this now

#### #2 - 2018-06-29 08:50 AM - bill-auger

ok the archlinux32 team says they will pick it back up

there is still probably a bug to report here though; because the package website still has the entries

#### #3 - 2018-08-09 08:01 PM - lukeshu

- Status changed from open to not-a-bug

It's 404 now, I think that was just the thing where parabolaweb wasn't updating.
