

## Packages - Bug #1907

### [rhythmbox] Magnatune plugin wont download

2018-07-21 12:13 PM - ani

<b>Status:</b> unconfirmed	<b>% Done:</b> 0%
<b>Priority:</b> bug	
<b>Assignee:</b>	
<b>Category:</b>	
<b>Description</b>	
I have the Magnatune plugin enabled in Rhythmbox but I get no feedback when hitting "Preferences" on it and neither do I get a "Magnatune" label displayed in the sidebar.	
local/rhythmbox 3.4.2+4+ge123ad533-1	

#### History

##### #1 - 2018-07-21 12:42 PM - freemor

Please run rhythmbox in a terminal with the appropriate debug or verbose options. Try to use the plugin and attach a log of any useful output here. Thanks

##### #2 - 2018-07-21 03:07 PM - ani

##### #3 - 2018-07-21 03:23 PM - freemor

Useful, Thank you

The first line there and a bit of googleing tells you everything you need to know.

You do not have a secrets service wunning. You need gnome-keyring or ksecretservice installed and running

So next questions:

Is one of them installed?

Is it running?

##### #4 - 2018-07-21 03:39 PM - ani

I believe not. Both questions.

##### #5 - 2018-07-21 03:43 PM - ani

I have now installed gnome-keyring and get this:

```
Traceback (most recent call last):
File "/usr/lib/rhythmbox/plugins/magnatune/magnatune.py", line 94, in do_activate
self.entry_type = MagnatuneEntryType()
File "/usr/lib/rhythmbox/plugins/magnatune/magnatune.py", line 50, in init
self.account = MagnatuneAccount.instance()
File "/usr/lib/rhythmbox/plugins/magnatune/MagnatuneAccount.py", line 58, in instance
instance = MagnatuneAccount()
File "/usr/lib/rhythmbox/plugins/magnatune/MagnatuneAccount.py", line 79, in __init
self.secret = items0.get_secret().get()
AttributeError: 'NoneType' object has no attribute 'get'
```

**#6 - 2018-07-21 03:58 PM - ani**

I just closed Rhythmbox:

Traceback (most recent call last):  
File "/usr/lib/rhythmbox/plugins/magnatune/magnatune.py", line 132, in do\_deactivate  
shell.props.shell\_player.disconnect(self.pec\_id)  
AttributeError: 'Magnatune' object has no attribute 'pec\_id'

**#7 - 2018-07-21 04:07 PM - freemor**

Have you configured the plugin with you account info?

**#8 - 2018-07-21 04:29 PM - ani**

If I try to do that:

(rhythmbox:2406): Rhythmbox-WARNING \*\*: 17:28:35.247: Unable to grab media player keys:  
GDBus.Error:org.freedesktop.DBus.Error.ServiceUnknown: The name org.gnome.SettingsDaemon.MediaKeys was not provided by any .service files  
Traceback (most recent call last):  
File "/usr/lib/rhythmbox/plugins/magnatune/magnatune.py", line 156, in *init*  
self.account = MagnatuneAccount.instance()  
File "/usr/lib/rhythmbox/plugins/magnatune/MagnatuneAccount.py", line 58, in *instance*  
*instance = MagnatuneAccount()*  
File "/usr/lib/rhythmbox/plugins/magnatune/MagnatuneAccount.py", line 79, in *\_\_init*  
self.secret = items<sup>u</sup>.get\_secret().get()  
AttributeError: 'NoneType' object has no attribute 'get'  
Traceback (most recent call last):  
File "/usr/lib/rhythmbox/plugins/magnatune/magnatune.py", line 228, in do\_create\_configure\_widget  
fill\_account\_details()  
File "/usr/lib/rhythmbox/plugins/magnatune/magnatune.py", line 174, in fill\_account\_details  
(account\_type, username, password) = self.account.get()  
AttributeError: 'MagnatuneConfig' object has no attribute 'account'

**#9 - 2018-07-21 06:16 PM - freemor**

Hmmm.. another missing service. It really looks like that pulg-in Requires a lot of Gnome.  
Again the first line tell you you need gnome-settings-daemon installed and running.

**#10 - 2018-07-22 07:03 AM - ani**

Installed gnome-settings-daemon, unable to find a .service for it to run.

**#11 - 2018-08-09 11:44 AM - ani**

This is an old bug that is still current. Do you need more info or something?

**#12 - 2018-08-09 12:08 PM - freemor**

It seems you ae unclear on some basic concepts.

gnome-settings-daemon is not a systemd/openrc thing. so it will not have an associated .service file  
It is a DE (Desktop Environment) thing and since you are not in Rhythmbox's native DE it falls to you to launch all the services it requires when your DE starts up.

Please check on the web for instruction on how to do this. I'd suggest searching "XFCE launch gnome-settings-daemon"  
(I put then XFCE in the because from some of your other "bug" reports it seems to be the DE that you are currently using)

**#13 - 2018-08-09 09:20 PM - freemor**

After getting Ani up and running with the gnome services this requires it failed out with:

```
1 Traceback (most recent call last):  
2   File "/usr/lib/rhythmbox/plugins/rb/Loader.py", line 44, in _contents_cb  
3     (ok, contents, etag) = file.load_contents_finish(result)  
4 GLib.Error: g-io-error-quark: Operation not supported (15)  
5 Traceback (most recent call last):  
6   File "/usr/lib/rhythmbox/plugins/rb/Loader.py", line 44, in _contents_cb  
7     (ok, contents, etag) = file.load_contents_finish(result)
```

```
8 GLib.Error: g-io-error-quark: Operation not supported (15)
9
10 During handling of the above exception, another exception occurred:
11
12 Traceback (most recent call last):
13   File "/usr/lib/rhythmbox/plugins/rb/Loader.py", line 32, in call_callback
14     v = callback(data, *args)
15   File "/usr/lib/rhythmbox/plugins/magnatune/MagnatuneSource.py", line 219, in update_cb
16     remote_changes = remote_changes.strip().decode("iso-8859-1")
17 AttributeError: 'NoneType' object has no attribute 'strip'
```

Looking on the Rhythmbox bug tracker this plugin has many outstanding issues:

<https://gitlab.gnome.org/GNOME/rhythmbox/issues?scope=all&utf8=%E2%9C%93&state=opened&search=magnatune>

Including this exact (or a nearly identical) one:

<https://gitlab.gnome.org/GNOME/rhythmbox/issues/1541>

~~Also looking at the gitlab for this its clear that this plugin is not getting any love. The last commit was several years ago. (Actually ther was some activity 8 month ago so not dead)~~

#### #14 - 2018-08-09 10:26 PM - freemor

Just tried Rhythmbox/Magnatune on an Arch/mate setup. It works there.  
So We are back to an issue with ani set-up (more missing gnome stuff) Is gtk3 installed?  
or there is an actual Parabola Issue.

#### #15 - 2018-08-10 06:04 AM - ani

[freemor](#)

Yes gtk3 is installed.

#### #16 - 2018-09-15 05:18 PM - ani

As of now. Magnatune works in getting the preferences up and it remembers what account I put in. I click on the "Magnatune" label in Rhythmbox to get to the list of songs, I'm presented with the front page of the plugin and then nothing happens (it's just a placeholder right now with no functionality).

Although, Soundcloud doesn't work either so maybe this is an issue with my setup?

#### #17 - 2019-03-01 07:24 AM - ani

- *File Screenshot\_2019-03-01\_08-20-44.png added*

I started Rhythmbox just now. Magnatune shows up correctly in the sidebar again and I can click it to listen to songs. I can click Preferences on the Plugins page on Magnatune Plugin and get a new window to show. I tried to click "Download" in the plugin window but it downloaded for a too long time so I tried to hit the button on the right side of the progress bar which looks like a small grey stop button. It didn't do anything and it had no animation when I clicked it.

Attaching screenshot.

#### #18 - 2019-03-02 01:03 PM - bill-auger

- *Status changed from open to unconfirmed*

- *Subject changed from [rhythmbox] Magnatune plugin stopped working to [rhythmbox] Magnatune plugin wont download*

magnatune plugin does not do anything without setting up an account first, so i cant see the problem right now - if you run rhythmbox from a terminal, is there any error printed when you see this problem?

#### #19 - 2019-03-08 02:26 PM - ani

[bill-auger](#):

I can't see the original issue right now. Everything works as expected.
